VOLUME IV.

WAINWRIGHT, ALBERTA, WEDNESDAY, OCTOBER 2nd, 1912.

NUMBER 52

## NEW VICE PRESIDENT IS ENJOYING HOLIDAY IN THE DISTRICT SHOOTING CHICKEN

Emulates Example Set by His Predecessor and Chooses Wainwright Vicinity in which to Hunt

**DISTINGUISHED PARTY**  
Head of Dominion Police One of the Five Members in Party

Recognizing the same fact that was borne in mind by his predecessor, that no better locality is to be found in Western Canada for duck and chicken shooting, Vice President and General Manager Morley Donaldson of the Grand Trunk Pacific, is here with a party of distinguished sportsmen. They arrived here on Monday in the Vice President's private car, "Transcontinental" and enjoyed yesterday shooting in the district.

Included in the party are several notables, not the least important being Colonel Sherwood, who is at the head of the Dominion Police at Ottawa. Major Stevens, of London, Eng., who is holidaying in Canada, is also in the party, together with several prominent New Yorkers, who have been enjoying chicken shooting in this district for years past. They will remain here for a few days.

## LOCAL BRAKEMAN HAD VERY NARROW ESCAPE

Brakeman Scott in Alighting from Moving Box Car Thrown Against Switch

An accident, which might have resulted in a fatality, occurred at the local railway yards on Monday night, when Brakeman Lawrence Scott sustained injuries which will cause him to lay off from active service with the company for some considerable time. The accident occurred at about 8 o'clock and as Conductor Leper was making up his train.

Scott was about to alight from the moving train and throw an adjacent switch and as he was preparing to release his hold on the side ladder, the train either came to a sudden stop or struck a string of box cars, throwing him against the switch. He was immediately carried to the Wainwright Hotel, where his injuries were attended to by Dr. Little. It was found that the seventh and eighth ribs were fractured. He is resting easier today.

## CHICKEN VERY PLENTIFUL

Yesterday was the opening day of chicken shooting season and to see the number of parties leaving town the outlying districts must surely have been alive with sportsmen. Those who returned last night reported fine luck and their number of birds bore out what they said.

## PIONEER IN TOWN

Mr. R. M. Carl, who was here in the early days of the town and who still owns property here, was in town this week, leaving on Tuesday for points in Saskatchewan. He will return here before finally leaving for California where he makes his home.

## WELL KNOWN ENGINEER KILLED AT HEAD OF STEEL

Engine Rolled Down Embankment Near Fitzhugh

Engineer Thomas Hartnett, a young man who was located here at one time, and who is known by the majority of local railway boys, was instantly killed on Saturday afternoon last, when his engine left the track and rolled down over an embankment near Fitzhugh. The fireman escaped without a scratch. The unfortunate young man resided at one time at Rivers, to which point the remains have been shipped.

## THIEF WHO MADE HALL AT HOTEL AND THIS ONE PROBABLY ONE AND SAME

Petty Thief Again at Work and Last Week Lifted Poultry Sum from Musson & Ross

**CLEVER BUT VERY CRUDE WORK**  
Identity of Crook is Suspected for He Entered Store Under Bright Moon

Another bold robbery has been committed in the town, the scene of the theft being at Messrs. Musson & Ross' store on Wednesday evening last; the hour about 10:30 and under the light of one of the clearest moons of the quarter.

The perpetrator of the theft was first noticed by Mr. S. E. James. At that time he was seen entering the basement of the building through the grating in the sidewalk. Mr. James immediately gave the alarm and a large number quickly congregated. The front, as well as the back of the building was guarded, but when a search was made in the building for the thief he had made his "get-away." The cash drawer, however, was rifled of \$8.00 in cash. Undoubtedly the culprit who shelled the pockets of Mr. Henning at the Wainwright and the one who entered Musson & Ross' store are one and the same and is still in town. A close watch is being kept and in the event of his capture, and justice of the peace, who might be chosen in P. E. Ross, can be depended upon to mete out the punishment he deserves.

## THANKSGIVING SERVICES

The Grace Methodist church purpose holding their anniversary supper on Thanksgiving Day, October 28th. On Sunday, October 27th, a prominent preacher of Edmonton will occupy the pulpit both morning and evening and on Monday evening will give a popular address. Further particulars will be given latter by bills.

## MANY COMPLAINTS HEARD

Many complaints have been heard of late of the condition of Third Avenue between Main and Queen Streets. Portions of the street were torn up when water was being pumped from the various cellars. It is in such a condition as to be dangerous during daylight as well as after dark.

Mr. H. C. King left here on Monday on a business trip to the Capital. He will return today.

**LOST**—Agray tweed coat, lost about West of town on the Vermilion road or somewhere leading in this direction. Finder please leave at STAR office.

## BOARD OF TRADE MADE MISTAKE FOR ONCE

No Exhibit of Any Kind to be Made at the Congress of Dry-Farming at Lethbridge

**MANY INVITATIONS**  
Other Less Deserving Districts May Carry Away Honors

Undoubtedly the board of trade will realize that a mistake has been made in not having obtained space for an exhibit of the district grains and grasses at the International Dry-Farming Congress, which is being held at Lethbridge this month, for towns throughout the whole west have reserved accommodation for displays of some kind.

Repeatedly the secretary was in receipt of communications in regard to this matter, and the board as a whole was urged to see that an exhibit was placed on show. No action, however, has as yet been taken and other districts, perhaps less entitled to the honour, will take the prizes. Saskatchewan towns will make extensive exhibits, and it is nothing short of a mistake that more towns in Alberta will not be among the numerous exhibitors.

It is certain that different states in the American union will make a point of having attractive displays, for the Congress is an international one of interest. In fact the affair is one of foremost importance to farming in all parts of the world, where grain-growing is engaged in. The exhibits there should first come from the country in which the congress is being held and an effort made to retain whatever honors possible in the districts where pursuits have proved the most successful.

## NOT ADVERSE TO ROUGHING IT

As Mr. Donaldson and his party left town this morning for a chicken shoot, they were snugly nestled in robes in the bottom of an ancient carry-all, which is the property of Mr. H. Y. Pawling. From their appearance on leaving town, they are prominent men and accustomed to something better, were adverse to roughing it in the manner any sportsman would enjoy.

## REPORTED BUSINESS TRANSFER

It is reported in business circles in the town that Mr. H. V. Fieldhouse has sold his law practise here and will shortly remove to the Coast, where his family are now located. The sale it is understood was consummated on Saturday last, while Mr. Fieldhouse was in Edmonton, and it is further reported that the practise has been purchased by an able and clever attorney of South Edmonton. Mr. Fieldhouse reports nothing definite in regard to this rumor.

Albert Mortimer, who does the killing for the Beauty Meat Market, had the misfortune on Monday Morning to get hooked in the hand by a steer he was endeavouring to throw, after he had shot it. Dr. Little, who was summoned, found that the tendons in his hand were severely cut. It is doubtful whether or not his hand will ever be of its former use to him.

## LATENESS OF SEASON HASTENS BUILDINGS

Although Weather Indicates Anything but Frost No Time in Delaying Last and Buildings are Being Ordered to Completion

The cold weather generally hastens all kinds of activity and especially in the building line. Local parties who have started buildings are realizing that the winter will soon be here, not because the weather in any way indicates a freezeup but because the first of October is considered the fore part of the winter, and for this reason are starting in on their buildings in real earnest.

## BY-LAW IN ORDINANCES IN RESPECT TO ASH PANS NOT BEING ENFORCED

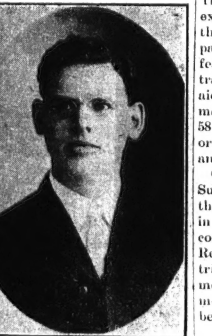

Despite Fact that By-Law Calls for Use of Ash Tin in the Business Area

## RATEPAYERS PAY NO REGARD

Winter Coming on and it is Necessary that These be Procured at Once

Somewhere in the town statutes there is a by-law calling for the use of tin for live ashes in the business sections of the town. Many have obeyed this particular statute and have already procured tins of this kind. There are, however, numerous ratepayers in these particular blocks who have not as yet secured them and to prevent disaster it is necessary that the law be lived up to.

Even now there is danger from live ashes and when the winter months set in with the usual winds this will be increased. The fire inspector, who, it is understood, is the police chief, should be instructed to see that this particular law is observed. No distinction of any kind should be made, for the safety of the town depends on one as much as another. From the fact that cold weather has not as yet set in, this by-law has evidently been overlooked. It is never too important even at this time, for a fire is liable at any season of the year.

PROF. E. W. THATCHER, Director of Washington State Agricultural College Experiment Station, Pullman, Washington, and chairman of the section of Scientific Research or The International Dry-Farming Congress, which meets at Lethbridge the fourth week in October next. Prof. Thatcher is one of the best known agricultural demonstrators of the Northwest and he has accepted the honor with the determination to make his sectional meetings the most important to the dry farmer and the student of agriculture of all of the time to be held during the week.

## SECRETARY KING WILL RESIGN FRIDAY

Fire Brigade Scribe of the Past Three Years Weary of the Office and will Tender His Resignation

**A NEW ORGANIZATION**  
Days of Volunteer Fire Brigade Are Evidently Thing of the Past

A very important meeting of the fire brigade will be held on Friday night, when matters, considered annually, will be dealt with. The brigade will be placed on a different footing, for the days of a volunteer aggregation have become a thing of the past. The council will now have to consider the advisability of maintaining a paid brigade.

The apathy of the property owners in regard to a fire brigade has left no other course open to the council. Secretary King, who has been acting in this capacity for the past three years, will resign from the brigade, but before doing so states that he will endeavour to put the aggregation on as firm a foundation as possible.

Provision will be made at this meeting for the housing of certain firemen in the new fire hall, which will be completed before the winter months. These, together with other matters of interest, will form the chief business to be dealt with.

## CHANCEL IN MEMORY OF LATE R. B. DAVISON

First Services Held on Sunday in New Building which will Stand in Memory of Late Church Warden

The new Chancel of St. Thomas Church which has been erected in memory of the late Mr. R. B. Davison, who was Incumbent's Warden at the time of his death, was opened for the first time for services on Sunday last.

The work of constructing it has been in the hands of F. W. Bell, who spared no pains to make it as beautiful and substantial a structure as possible. The work throughout has been exact and in accordance with the architecture of the other part of the church. Another feature is that apart from Contractor Bell's work, voluntary aid has been given by the members of the church. Being 58 ft. long the church now affords a greater seating capacity and other acoustic properties.

Opening services were held on Sunday last, and on account of the Archdeacon being detained in Saskatoon the services were conducted by the Incumbent, Rev. H. A. Clark. It is a great tribute to Mr. Davison's memory that up to the present more than half the cost has been subscribed.

## NOT MUCH BUSINESS DONE

Last night's meeting of the council was brief, and outside of several reports from the various committees in regard to work in the particular departments, very little business of importance was dealt with. All the councillors, with the exception of Councillor Beaudry, were present, and at 10 o'clock went into committee of the whole with Com. Lally in the chair.

## 10 THRESHING OUTFITS BUSY NIGHT AND DAY

Excellent Weather of Past Ten Days Great Boon to Farmers

With no less than ten threshing outfits at work in the immediate vicinity of the town, district farmers are taxed to the limit with work and little of this year's grain has arrived at the local elevator. Manager S. R. Bowerman, who is in charge of the local buying station, is strongly of the opinion that the next two weeks will be the busiest the elevator ever had at this time of the year.

## DISAPPEARANCE OF 1911 ASSESSMENT ROLL NOW REPORTED WITH OTHER BOOKS

Another Book Belonging to Town Now Found to be Missing

**FROM WHICH TAX ROLL WAS MADE**  
Mr. Fieldhouse Says it was on Safe the Same Day It Was Moved from His Office

According to reports of councilmen, still another book is missing, and this time it is the 1911 Assessment roll, which was made up by the assessor for that year, R. A. Snyder. Between this and the tax roll for the same year, which is also missing, there is very little difference, for one is practically the same as the other, the latter being made from the list of assessments.

Mr. Fieldhouse, in whose care this book was, previous to the removal of the books to Secretary Kenney, states that the assessment was on top of the safe the day it was moved and certainly must have left his office. A search for it, however, has proved in vain, so that the list of books missing at this time are the tax rolls for 1910 and 1911, two books of receipts of one hundred each and the 1911 assessment roll.

At about ten o'clock last night, the council went into committee of the whole and rose about 11 o'clock, during which time it is understood that a detailed auditor's report was under consideration. Further than this nothing can be said, for the press was kindly invited to leave. Another meeting was held this morning and for what reason it was called is as much of a mystery as what went on after 10 o'clock last night. At any rate, these new developments are not forthcoming at the present time.

"Jack" Alderman is wearing a happy smile over the arrival of a ten pound sum at his home on Monday morning.

## INSTITUTED MASONIC LODGE

MORSES, W. E. Washburn, S. E. James, A. E. Mills and others went to Viking on yesterday's express and last night instituted a Masonic lodge at that point. District Deputy Master Brimicombe of Vermilion was also present.

A large number of local people and almost as many from the country enjoyed the dance held in Robert Wright's building on Third Avenue on Tuesday evening last. Excellent music was provided for the occasion.

## RAGING PRAIRIE FIRES IN PROVINCE SHOULD GIVE WARNING TO ALL DISTRICT FARMERS

Evidence of Clouds of Smoke Proves Prairie Fire Raging in Vicinity of Town and to Prevent

## SERIOUS DISASTERS

Farmers Should Exercise the Utmost Precaution in Guarding Fires

Judging from the heavy smoke which has been in evidence since Sunday, a prairie fire is raging somewhere, and the extent of it must be of large dimensions. It is not thought, however, that it is in the close proximity of the town, for no report has been received from the outlying districts.

The past week has been an especially dry one and the prairies are in a similar state. A prairie fire is then to be feared and the usual care and precaution should be taken by the farmers to see that the countryside is safeguarded. At this season of the year fires of this kind are always feared and especially by those who have not protected themselves by fire guards.

District farmers are now busy threshing their grain and camp fires are a necessity. These can be looked after, however, with a little care, and when they are, the safety of the entire community will be protected in like manner.

## JOHN MANNER DOES NOT THINK RATEPAYERS WANT HIM TO LOSE HIS MONEY

Pump Refused Him and Assigns This as Reason for Leaving Job

**EDITOR OF THE STAR, SIR:**

In your last issue, I notice you had an article saying I stood to lose several hundred dollars by throwing up work on the rink well.

Now on that I am losing about \$400 and I think it is just as big a shame for the town to let me lose this much as it is for me to lose it. As I offered to do the work according to specifications, if they (the councillors) would let me have the scavenger pump to keep the water out. But Councillor Snyder would not let me have it, saying if that pump went away from the scavenger, he was going to quit. I offered to pay for the use of the pump and take the water away from the well. Why don't he quit now as I see the pump is in use by contractor Walker? If as Mr. Snyder says, the pump is for the scavenger's use only, then the ones using it now have no better right to it than I would have had.

I offered to let all the work that I had done go for nothing, leaving tools, etc., to be used if they would let me oversee the job. Even that they denied me. Now I ask any ratepayer, is that fair or not? I have been in this town ever since it started and my observation is that a stranger has more show than a ratepayer.

Please print this in your next issue,  
John Manner

October 28th is Thanksgiving Day and will be observed as such throughout the Dominion.

## ZAM-BUK AND OUTDOOR LIFE

Every tennis or ball player, every swimmer, every canoeist, every man or woman who lives outdoors in the sun, should have a box of Zam-Buk handy.

Zam-Buk is a purely herbal preparation, which, as soon as applied to cuts, bruises, burns, sprains, blisters, etc., sets up highly beneficial operations. First, its antiseptic properties render the wound free from all danger from blood poisoning. Next, its soothing properties relieve and ease the pain. Then its rich, herbal balms penetrate the tissue, and set up the wonderful process of healing. Burned, scratched, itchy skin, eczema, rashes, ringworm, bad skin, heat, chafed shins, were felt to be all quickly cured by Zam-Buk. It also cures and cures piles. All druggists and stores. Use Zam-Buk. Price also, 25c. per tablet.

## The Letter of the Law

Mr. J. M. Smith, M.P., tells a story of a County Court case he was once engaged in, in which the plaintiff's son, a lad of eight years, was to appear as a witness.

When the youngster entered the box he wore boots several sizes too large, and he had, that almost hid his face, long trousers rolled up so that the baggy knees were at his ankles, and to complete the picture a wall-to-wall coat, that had to be held to keep it from sweeping the floor. This ludicrous picture was too much for the judge, but the judge, between his spasms of laughter, managed to ask the boy his reason for appearing in such a costume.

With wondering look the lad fished in an inner pocket, and hauled the enormous fan that he pulled out with a solemn mien as he held it up. "To appear," he said, "as a witness."

## Minard's Liniment Cures Colds, Etc.

It was a great occasion. The junior element of the village had met to elect a new captain, the previous one having retired at the age limit (18). One youngster was particularly vehement in asserting his claims for the post, and talked down all the other candidates.

He was the son of the owner of the cricket-field, and had a snub nose and red hair, and a very aggressive air.

I'm going to be captain this year, he announced finally after two hours of arguing, or the champion's old bull was turned into the field at once.

Many mothers have reason to bless "their Graves" Worm Exterminator, because it has relieved the little ones of suffering and made them healthy.

A commercial traveller at a railway station in one of our southern towns included in his offer for breakfast two bottles of "The Old Ducky" who served him brought him three.

"Uncle, said the travelling man, why did you bring me three bottles of 'The Old Ducky'?"

"I only ordered two."

"Yes, sir, said the old ducky, bowing and smiling, I know you did order two, sir, but I brought three because I just natural 'fist dat one of dem might fall off, sir."

Charles the XII of Sweden had an old-fashioned way of having food cooked without coal or gas.

The food was cooked in a large pot of water, and the pot was heated by a fire of straw and brushwood, which was kept burning in a small stove.

The food was then served up in a wooden bowl, and the king would eat it with a spoon.

The king was very fond of this food, and it was his favorite dish.

The first woman wireless operator to receive an appointment in the Alaska-Kelso Co. just placed in charge of the wireless installation of their latest steamer, the Mariposa.

Mrs. Kelso holds a certificate of proficiency from the United States Naval Department, and understands emergency repairs and the replacement of broken parts.

When on duty Miss Kelso will, it is stated, wear a blue jacket with brass buttons, a tailored skirt, and a blue cap trimmed with gold lace.

## DOCTORS ADVICE OPERATIONS

Saved by Lydia E. Pinkham's Vegetable Compound.

Swarthmore, Penn. "For fifteen years I suffered untold agony, and for one period of nearly two years I had hemorrhages and the doctors said I was incurable. I would have to undergo an operation, but I refused. I was then saved by Lydia E. Pinkham's Vegetable Compound and am in good health now. I am all over the change of life and cannot praise your Vegetable Compound too highly. Every woman should take it at that time. I recommend it to both old and young for female troubles."—Mrs. Daisy Stoneham, Swarthmore, Pa.

Canadian Woman's Experience.

Fort William, Ont. "I feel as if I could not tell others enough about the good Lydia E. Pinkham's Vegetable Compound has done for me. I was weak and tired and I could not rest nights. A friend recommended your Compound and I soon gained health and strength and could not wait to sleep. I know other women who have taken it for the same purpose and they join me in praising it."—Mrs. W. A. Brown, 611 South Victor Street, Fort William, Ontario.

A pompous politician, while on his way to a certain election, was the victim of a certain fate. In seeing some tacks lying about the public house, he happened to see one that had apparently been using them.

"Don't leave those tacks lying about," he said to the waiter, "I want to use them."

But the waiter said, "I thought I should tell you that they were not for sale."

But the politician said, "I don't care. I want to use them."

So he took them and used them.

But the waiter said, "I thought I should tell you that they were not for sale."

But the politician said, "I don't care. I want to use them."

So he took them and used them.

## THE FARMERS AND THE GRASS RING

The Duty of the Hour

In previous articles we have fully exposed the true intentions of the proposed sample market for grain and the selfish motives of the Winnipeg Grain Ring who are seeking to force the grain growers of the Western Provinces to accept it. The grain men of Winnipeg are not to be trusted. In the past they have always sought to secure unfair advantages at the expense of the farmers, and when they propose to remove at one blow, all the legal restrictions that now check their rapacity by the establishment of a sample market, they must be resisted with untiring determination and vigor. The people of the western provinces cannot afford to neglect the advantages they have gained over this ring of sharks after years of determined conflict. The farmers should remember that when the sample market is established, all grain produced in the hands of the Winnipeg grain ring will be shipped, to be sold by the grain combine for any price they choose to pay. The people of the West will never submit to such an injustice.

We wish to again to emphasize the fact that the farmers of the West have never asked for a sample market, and will not have it at any price. The present system of grading and selling grain is a fair and equitable one, and the farmers of the West, and also the producers of the West, are also satisfied with the present system. The farmers of the West, and also the producers of the West, are also satisfied with the present system. The farmers of the West, and also the producers of the West, are also satisfied with the present system.

In a recent report of J. T. Littlewood, Canadian Trade Commissioner in Germany, he shows the value of the present grading system as compared with the German system. The German system is a very high standard, and the Canadian system is a very low standard. The Canadian system is a very low standard, and the German system is a very high standard.

It is a great mistake to suppose that the farmers of the West are not interested in the grain market. They are very interested, and they are very active in their efforts to improve the market. They are very active in their efforts to improve the market. They are very active in their efforts to improve the market.

The farmers of the West are very active in their efforts to improve the grain market. They are very active in their efforts to improve the grain market. They are very active in their efforts to improve the grain market.

The farmers of the West are very active in their efforts to improve the grain market. They are very active in their efforts to improve the grain market. They are very active in their efforts to improve the grain market.

The farmers of the West are very active in their efforts to improve the grain market. They are very active in their efforts to improve the grain market. They are very active in their efforts to improve the grain market.

The farmers of the West are very active in their efforts to improve the grain market. They are very active in their efforts to improve the grain market. They are very active in their efforts to improve the grain market.

## ONE TIRED WOMAN AND ONE LITTLE OVEN

You have probably been there yourself—perhaps are right now. Beigh women all over Canada are getting away from this. They welcome MOONEY'S BISCUITS as a most acceptable substitute for their own bread and biscuits.

## MOONEY'S PERFECTION SODA BISCUITS

are the crispest, crummiest crackers made. Better still, they are baked in Winnipeg; right at your very door. They come to you fresh as the product of your own oven.

You can have them in all-right packages or sealed tins as you prefer.

Ready to Oblige

"The lady of decided notions and political leanings went to consult her friend, Mr. Twinkl, said the man of law. This is a real pleasure. Take this way. Just think of it. The woman of decided notions, said the man of law. This is a real pleasure. Take this way. Just think of it.

"I want You to Take a New Potable Granary"

"I have a money-saving invention—handy granaries to allow field threshing over your farm. Move them about as you like. You save long hauls at harvest time. In spring you scatter small straw stacks—no burning of straw."

Minard's Liniment Co. Limited.

Gentlemen—I have used MINARD'S LINIMENT on my vessel and my family for years, and for the every day life and accidents of life I consider it has no equal.

I would not start on a voyage without it, if I could not get a bottle of it. It is a real pleasure to have it.

Minard's Liniment Co. Limited.

The Dog in Politics

An Italian paper has been collecting instances where dogs were used to influence politics or express the political feelings of their owners.

In 1894, when the Italian government was in a difficult position, a dog was used to influence the government.

In 1897, a dog was used to influence the government.

In 1899, a dog was used to influence the government.

When people who write for fashion publications, says a Vienna letter, have nothing more to say about queer shaped hats, grotesque skirts and other equally important matters, they tell us that black is going out, and white is to be the morning color.

The black is still maintaining its place, but the sleeve band will be looked for several times a year, but black, some black, still maintains its place.

The band on the sleeve has done much to save money for those who still wish to wear a badge of mourning, but the sleeve band will be looked for several times a year, but black, some black, still maintains its place.

CLEAN HANDS

I see Jack Hanson was married the other day to Miss Hilda. Yes, and was very sorry to see it. Sorry? For her sake or his? For mine. I wanted her.

Life was the happy father of a very pretty and bright little girl of twelve. Dad, said to him, one evening, "What do you think of this?"

When I go to school the boys watch hold of me and kiss me. I don't like it. Why don't you run away from them?

Well, dad, if I did, perhaps they would follow me. I don't like it.

I want you for my neighbor in the prize winning district of B. C.

## PRIZE WINNING B.C. FRUIT LANDS

There is hardly a man, woman or child, in Canada, who can read but have heard of my famous Honeycomb Place fruit and poultry ranch, on the Main Kootenay Lake in British Columbia. You haven't seen the Kootenays without visiting my ranch. I live there myself, it is my home. I spent five years locating this ideal spot. I lived on the Pacific Coast—Portland, Ore., Hood River, Ore., Yakima, Valley, Washington, Seattle and Vancouver for five years, trying to find out which of the districts I wanted for my home—none suited me like the Kootenay Lake district. Here we do not have to irrigate as they do in the Hood River, Yakima, Okanagan and East Kootenay districts. We do not have the rainy season as on the Coast. Our climatic conditions are just right. The Main Kootenay Lake never freezes over—boating and fishing the year around. In the fall big game of all kinds can be had by sportsmen who are willing to go back fifteen miles or so into the mountains. Wild ducks, geese and chickens are plentiful, and fishing—if you have never landed any of our Kootenay Lake rainbow trout—you don't know what fishing is, besides catching salmon trout that will weigh from ten to thirty pounds is no easy task, and when it comes to eating them you wouldn't wonder why I like Kootenay Lake. Of course, fish are all right, but if you enjoy fruit, of all kinds such as, apples, peaches, pears, apricots, cherries, raspberries, grapes, blackberries, strawberries, etc.—you will never find a place where they will "go to the spot" as in our district, where we have just the right amount of rain to insure good crops. Do not compare our fruit to fruit grown in an irrigated district. Our fruit has that delicate delicious flavor, such as is found in choice fruit grown in the Eastern States and provinces. Send for the October number of the "Kootenay Magazine" and it will tell you all you want to know about Southern B. C. fully illustrated (postpaid 25c). It gives briefly my plan on how to bring apples into commercial bearing in two years. "Harris' New Method of Apple Culture" should interest every fruit grower in Canada. Where you made \$1,000 per acre from apples, you can by my method make \$2,000. The October number also contains a story of my "Five Years Homesteading" which will interest anyone wanting to find an ideal home in the West. There are scores of fine photos of orchards and scenes of interest in the Kootenay district. Tells you of my selling plan. "\$1 down and \$1 per week proposition for an acre of improved fruit land is one plan. "\$20 down and \$10 per month" for five acres—one acre cleared and planted and taken care of for five years, you to share in crops after the second year, in another plan, \$50 down and \$25 per month" is another plan for ten acres. A discount of 10 per cent. for cash.

Land selling at from \$50 to \$150 per acre, over 5,000 acres to select from. Next regular monthly excursion to my offerings in B. C. will be on September 25th, leaving Winnipeg at 10:40 p.m. Read the many letters in the magazine from satisfied buyers—they are genuine. If you cannot go out with me on my next excursion to make your own selection I will make it for you. All tracts will be raised \$25 per acre after October 1st. They are worth \$200 per acre right now. I should ask it, but I want to give several hundred more "homesteaders" like myself a chance to buy a right and if I use you right you will be a desirable neighbor. That is what I want, good, clean, desirable neighbors and you cannot buy land from me unless you are right. I have sold to over 500 people since January 1st, and I have yet to find one that I would be ashamed to call my neighbor. Write me, giving the name of at least one reliable reference, state nationality—if married—and amount you wish to invest and I will send you more particulars regarding the wonderful opportunities in the Kootenay Lake District. Remember, I live there myself—have my own fruit and poultry ranch. I wouldn't ask you to live where I would not be willing to. This is worth your careful consideration.

FRED L. HARRIS

818-920 Somerset Block Phone M. 3458, open evening

## The only Photographic Art Gallery in the District

J. H. GANO - 2nd Ave - Wainwright

Fully Equipped with all the Latest Mountings and Cards. Portraits: Children, Groups, Wedding Parties

The Old Name - At the New Address OPPOSITE P. O.

## Synopsis of Canadian Northwest Land Regulations.

Any person who lets the sole head of a family, or any male over 18 years old, may homestead a section of land in the Northwest. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader. Duties—Six months' residence upon and cultivation of land in each of three years. A homesteader may pre-empt a section of land homesteaded on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister. In certain districts a homesteader in good standing may pre-empt a section of land homesteaded on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister. A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may take a purchased homestead in certain districts. Price \$5.00 per acre. Duties—Must reside on the land in each of three years, cultivate fifty acres and erect a house worth \$200.

## FACTORY AND FARM

Together They Build up the Home Market

No better example of the interdependence of the manufacturing and agricultural interests is required than Ontario. It is not necessary to go into the enormous industrial expansion of the province in the last two years. This is everywhere evident. But what of the farm? The sold crops of Ontario last year were valued at \$250,000,000 or an average of \$1,666 from each of the 150,000 farms. Five years ago, the value of Ontario's agricultural output was placed at 145 millions, and ten years ago it was not more than a hundred millions. The number of farms to share in that one hundred millions was larger than now, so that the average income of each farm was considerably less than \$1,666. In fact, the average income in 1901 was about \$800, according to calculations made from statistics published by the Department of Agriculture. This means that the Ontario farm of today is giving the owner returns that are at least 100 per cent. greater than they were in 1901. The growing value of the output of the farms can only result in one thing, and that is the increased value of the land. Thus, the latest record of an assessment of the rural areas show that the farm lands of Ontario are worth over \$108,000,000 more than in the first years of the last decade. To make the comparison still more striking, the assessed value of Ontario's land is worth \$10 per acre more than in 1901, and another significant fact is that the area of these lands has extended in the last ten years fully 1,500,000 acres, showing that farming is actually becoming a more widely followed pursuit in Ontario.

What is true of Ontario also applies to Manitoba, Saskatchewan, Alberta and other provinces. The greatest prosperity is where a fertile farming district is tributary to a food factory town. The one helps the other. The best market for the local farmer is the home market and the best produce for the citizen is from the near by farms and gardens.

## RAISING LIVE STOCK

Grain Growing Alone is Not Adequate in Southern Manitoba

It takes time to change from growing grain to raising livestock and dairy cattle. But southern Manitoba is being both induced and forced into the change. The crops in the last three years have not been as good as they used to be, and the demand for all kinds of small food products from markets like Winnipeg and from the new settlers in Saskatchewan and Alberta has been such as to prove the profitability of feeding grain and fodder instead of growing grain alone. The result is that many a station platform is decorated with ten-gallon milk cans these days, waiting to be rushed to city dairies or to be consumed by a local creamery or cheese factory. Last year the district between Winnipeg and Morden, which is merely the central portion of Manitoba, marketed 6,472 head of cattle, 2,790 horses, and 10,338 hogs, an increase of nearly twenty per cent. in every department over the previous year. In dairy products he Manitoba farmer last year sold \$90,000 pounds more butter than in 1910, and realized over \$200,000 more for his milk. Creameries produced and sold nearly 400,000 pounds more butter than in 1910, and comparing total receipts for the two years for dairy products, over \$1,536,000 was received in 1911, as against \$1,372,000 in the previous year. This season will see further increases in these items.

## OUR PULPWOOD

Sufficient Cut Yearly to Keep One Hundred and Twenty Mills Going

Fifty-six per cent. of the pulpwood cut in Canada during the year 1911 was exported to the United States. This is the fact shown by statistics collected by the Forestry Branch of the Department of the Interior. The total quantity of pulpwood cut in Canada during 1911 was 1,326,227 cords. The quantity exported amounted to 844,939 cords, while the remaining forty-four per cent. (672,288 cords) was manufactured in Canada. The value of this pulpwood was \$5,540,592 (an average of \$6.25 per cord.) Had the wood been retained in Canada and manufactured here, it is estimated that the value would have been increased to about \$15,000,000. Had Canada's manufactured into wood-pulp all the pulpwood she produced, she could have had enough to supply a hundred and twenty-two mills of the average size of those operating in Canada. Instead of the fifty-four she now has, Quebec could have supplied sixty per cent. more mills than she is now doing, and New Brunswick could have doubled the number of her mills.

## ACTIVITY BY THE G. T. P. AT POINTS ALL OVER ENTIRE SYSTEM

Weekly Budget of Live News from Points Passed by this Line of Railway

The chief attraction in the immense Land Show building at the Michigan State Fair—always one of the best in the United States—just concluded in Detroit is the Canadian Exhibit arranged by Mr. M. V. MacInnes, general agent of the Dominion Government in the United States. This fine display occupied 65 feet of space and its tasteful decoration are of the highest standard; a conspicuous feature being the fine picture supplied for the exhibit by the Grand Trunk Railway System and Grand Trunk Pacific Railway.

While the ultimate choice of route for the Pacific Great Eastern from North Vancouver to the Grand Trunk Pacific main line in the heart of British Columbia has not yet been officially announced it is now generally understood that it will run in a general way along the shore of Howe Sound and the Squamish Valley, through the rich Pemberton Meadows, on the way to Lilloet and the further route up the Fraser River, and will in this district open up an agricultural country than which there is probably nothing finer in the province.

Report from the west state that steel on the Totfield—Calgary branch of the Grand Trunk Pacific has now been laid as far south from the main line as Irricana and the grade is now ready for entry into the latter place. A bridge at the Row River about four miles out of Calgary is likely to delay track laying a little. This bridge is of steel construction and is to be erected by the Canadian Bridge Company. It is expected that it will be completed and the steel laid right into Calgary by the first of November.

## FUNERAL OF THE LATE MRS. WILEY HELD AT PARADISE VALLEY

The funeral of the late Mary J. Wiley, of Paradise Valley, Alta., took place on September 22nd, Rev. A. M. McLellan officiating. Service was held in the Presbyterian church, from which interment was made in the cemetery near by. The late Mrs. Wiley was born in Madoc, Ont., 78 years ago, the last five years of which were spent in Alberta with her daughter, Mrs. R. M. Nickle, of Paradise Valley. Seven sons, Stephen and Arnold of Weyburn, Sask., Thos. L. of Marmora, Ont., James H. of San Francisco, Cal., Charles, of Ellensburg, N. Y., W. J. of Paradise Valley and H. H. of Wainwright, remain to mourn her loss.

## CHAUVIN'S FALL FAIR

October 4th is the date of Chauvin's fall fair and local people will likely attend in goodly numbers. This will be Chauvin's first exhibition and in view of extensive preparations will likely be a successful one.

## LABORERS FOR THE FRONT

No. 1 passed through here on Monday afternoon with no less than eleven cars on trains. During the fifteen minutes or more that the train stopped at least two hundred laborers, going through to the front swarmed the platform.

## MAY BOX IN EDMONTON

Jon Uvanni, who left here last week for Edmonton, is confident that he will be matched against a reputable middleweight by the Athletic Association. There is a probability that Kirby will meet him in that city for Canadian honors.

Learning ad rates, 10¢ per line per issue.

Adverts, such as "Wanted," "For Sale," "Wanted," etc., three insertions for \$1.50. Cash with order.

News Stands where the STAR is sold—Red Cross Pharmacy, and The Wainwright Pharmacy.

WAINWRIGHT ALTA., WEDNESDAY, OCTOBER 2, 1912

IN going to press this week, the fourth mile post in the history of the STAR is reached, for the same number of years have passed since the first issue of the publication was printed and circulated. The evolution during this space of time has been marked by progress of a very noticeable nature and progress for which the managers of the STAR have not been entirely responsible.

Four years ago, a small plant was shipped to Wainwright, which then consisted of a few stray shacks and a number of temporary business houses. An Army hand press constituted the only heavy piece of the entire equipment, and this weighed considerably less than one hundred pounds. Even so, to ship a plant into such a small village as Wainwright then was, for not more than two hundred men, women and children were here, was a venture, the success of which, was looked upon as being considerably in doubt. Liberal patronage and support, however, were quickly responsible for a feeling of confidence on the part of the owners. The paper thrived and rapidly took its place among the foremost of Alberta weeklies. It quickly came to be looked upon as a publication, well worthy of the town and district. During these four years the STAR has changed hands twice, first in the spring of 1910 and again on its second birthday, October 1st, 1910. What the change in the appearance and prestige of the journal has been during these four years, subscribers and patrons are in a better position to judge. Certainly there has been an effort for a better and cleaner sheet and we hope that effort has been successful.

THE FOURTH MILE POST  
With any modern publication, the extent of its circulation is one of the most important and necessary features. During the regime of the present editor, the subscription lists have been increased more than two hundred per cent. The STAR enters the home of every citizen and a satisfactory feature in this connection is the fact that no dead-head subscribers are carried.

With no small amount of pleasure it is then our privilege and duty to publicly thank all supporters of the STAR, who have caused its evolution from a small journal of inferior proportions to one which is looked upon throughout Alberta as being second to none.

PETTY thefts have been made here recently, and a natural conclusion is that a smooth crook is at work in the midst of law-abiding citizens. In one case, the amount of the theft has been considerable and in every case, more than the ordinary man is willing to have stolen from him. It is then necessary that close vigilance be observed by all householders and extra watchfulness indulged in by the guardians of the law, on whom ratenayers depend for protection.

The extent of the robbery, committed last week, was small and it appears strange that the thief was not taken into custody, for from all reports he was hemmed in on all sides, but in the end succeeded in making his escape. Suspicious as to the identity of the crook are entertained by certain citizens, yet in the majority of cases mere suspicion is not all that is necessary on which to make an arrest. Instead of waiting until an offence of this kind is committed, citizens and policemen alike should be on the alert and in this way prevent such robberies taking place.

RECENT CASES OF THEFT  
An epidemic of thefts is apparently being experienced all over the province and especially in the smaller towns, where the law is not held in as much fear as in the cities. Before citizens are made to suffer, and to prevent havoc among the unprotected women of the town, immediate steps should be taken to make the police patrol more thorough. If this is not done, the thief, whoever he might be, will become bolder in his methods of attack, and perhaps offer more than assault to the unprotected.

Investigation ONLY NATURAL  
A short reference was made in last week's issue of the STAR to Auditor Henderson's report, which, together with other matters being looked into, demand an investigation, which should be complete and thorough in the most minute detail. The loss of certain town books, included in which are the tax rolls for 1910 and 1911, is a matter, the real seriousness of which is readily seen. In making up and extending the 1912 roll, no correct check of arrears and penalties is at hand without the missing rolls. No reliable audit of the books can be made. The greatest mystery at present is how or when these books disappeared. They are enclosed in covers two feet square and such a book if misplaced could easily be located after a thorough search was instituted. Evil intent on the part of some malicious individual may have been responsible for the sudden disappearance of the books, yet a man who would resort to an act of that nature would be a most bitter enemy of Mr. Fieldhouse and such adversaries we do not believe the late secretary has of ever had. A man who would stoop to anything so base would be a criminal of the blackest type. Surely the books could not have been stolen, for they would prove of no earthly value to anyone. Mr. Fieldhouse would certainly not do away with them, for their loss would place him in an unfortunate position. The sheer folly of such an act would be apparent even before its consideration.

Under circumstances which concern the municipality and indeed every ratepayer, the Mayor and Council have pursued a course, which is endorsed by the STAR, and which, to fair-minded citizens should appear as the only natural and proper course. At any rate it is fair and equitable to both Mr. Fieldhouse and the town. If the late secretary has been made shoulder unjust criticism, an investigation will prove him innocent, and it is to be hoped that this will be shown to the full. Furthermore, a thorough examination of the town's books would appear to be the only way in which suspicion could finally and conclusively be removed from Mr. Fieldhouse and for this reason he should have nothing to fear and will not scout an investigation. In the meantime and until the missing books are restored, it would be well for all good citizens to bear in mind that Mr. Fieldhouse is placed in a very unfortunate position and that criticism should be reserved until such time as facts warrant it.

From the Auditor's report, certain irregularities in the town's financial account were undoubtedly discovered, and this, together with the fact that certain books and tax receipts were not to be found, gave rise to a motion, introduced in committee by Mayor Pawling and seconded by Coates Snyder, that the bondholders of the late secretary be notified, that the council's dealings are their no longer with Mr. Fieldhouse, but now centre around those who furnished his bonds. In the meantime, it is to be hoped that the missing books will turn up somewhere, for the position in which Mr. Fieldhouse is now in may be due to the malice of an unknown enemy or to a chain of unaccountable circumstances. If the books have been misplaced, they can surely be brought to light, after which the complete audit and, D.V., may the books be found correct.

Western Canada is now harvesting a crop which should prove a bumper one in the history of recent years. Certainly it will be better than last year. Then it is natural that a flood of immigration can be expected next spring. A good crop means a leap forward of several years.

Will the Wainwright flour mill prove adequate is a question being asked by certain citizens, who are keenly interested in the industry. For the present, at any rate, should it prove large enough. When conditions warrant it, the assurance is given that the capacity will be increased.

In a short time now, Taft, Roosevelt and Wilson will be lining up for one of the most heated election days in the history of the United States. All three can see victory ahead and victory there will be for one. Roosevelt is apparently the long shot, Taft and Wilson even betting.

Horse power is gradually becoming a thing of the past so far as extensive farming operations are concerned, and if steam and gasoline continue to advance with the same speed as during the past few years the primeval ox will be away behind the times. Steam and gasoline power indicate the development of the country.

The "I Won't Works", better known as those belonging to the "L. W. W." league, are raising no small disturbance in the city of Edmonton and the probability is that certain improvements on which they refuse to work, unless certain conditions are altered, will be shut down until spring, thereby leaving these men without employment during the winter. The lesson would be a good one, but an expensive one to the city.

Citizens should bear in mind that the municipal elections will take place in December and that it is not too early to prepare a slate for 1913-14 council board. The chief difficulty, however, will probably be found in suitable men to offer for election.

A noteworthy feature regarding the surrounding district which has come to the notice of the townspeople is the prosperity of the farmers in general. One cannot fail to view the signs of happy contentment on the faces of the farmers and their families. To compare the conditions now with those of four or five years ago, the change is simply surprising.—Ryley Times.

Does not buy his lumber on the basis of price only. He realizes that it is not so much what he pays, but what he gets for what he pays, that counts.

As one of our customers remarked the other day the first cost is not the last cost.

There are many "books" in the lumber business, we have none buried. In no other line, perhaps, do you rely so strongly on the honesty of the dealer.

Ask our customers what sort of treatment they get at this yard.

Bay mare with four white legs, white stripe on face, has a brand on thigh and one one sorrel gelding, figure 2 on hip.

Little bay mare, branded on thigh, 1300 lbs. Also black mare about 1300 with CR on shoulder with fine black colt at side. Suitable reward. Please notify

Theodore Smith, Wainwright.

LOST—Between Gregson's Livery barn and Lally's store, one black overcoat with fur collar and astrachan lining. A suitable reward will be given for its return to Emil Wilhelm, Hope Valley, or to the STAR office. 51-53

TO RENT—Furnished rooms. Apply, Mrs. Dr. Watson, Fourth Avenue

LOTS FOR SALE—Offers are invited for purchase of Lots 37 and 38, Block 5, First Avenue, near Depot. Owner will give very easy terms or will sell cheap for spot cash.

Post Office Box 1780, Vancouver, B. C. 50-52

It is a foregone conclusion that whoever secures the lease of the rink must make ample provision for a hockey team and dress carnivals, if he expects the place to pay him any kind of munificent returns. It is certain that hockey will be seen here this winter and not to provide for frequent practices and the accommodation of the team generally would be an error that would probably result in failure.

Now that a good crop has been harvested by the district farmers, they should not forget those past due notes and accounts, which have been running for years perhaps.

LIQUOR LICENSE ORDINANCE

APPLICATION FOR TRANSFER OF LIQUOR LICENSE

Application has been made by Messrs. Partridge, Kendall & Lee for the renewal of the license granted them in respect to the Park Hotel, situated on Lots 27, 28 and 29 in Block 7, Townsite of Wainwright, Alberta, Plan No. 6445-V.

This application will be considered by the Board of License Commissioners at a meeting to be held in the Mechanic's Hall, Edmonton, on Wednesday, October 23rd 1912 at 10 o'clock A.M.

Dated at Edmonton this 20th day of September 1912.

L. F. CLARRY, Deputy Attorney General.

NOTICE

Local Improvement District 23-C-4

Notice is hereby given that all persons having claims against Local Improvement District 23-C-4 are required to send particulars of such claims to Arthur Martin, Wainwright, the Secretary of the said District, before the seventh day of November, 1912, and that any person who fails to, or omits to do so shall be deemed of his right to recover the same from said District or any other District that may be liable for the liabilities thereof.

Dated at Wainwright this 21st day of September, 1912.

Arthur Martin, Sec. L. I. Dist. 23-C-4.

NOTICE

Local Improvement District 24-C-4

Notice is hereby given that all persons having claims against Local Improvement District 24-C-4 are required to send particulars of such claims to D. W. Hansen, Wainwright, the Secretary of the said District, before the seventh day of November, 1912, and that any person who fails to, or omits to do so shall be deemed of his right to recover the same from said District or any other District that may be liable for the liabilities thereof.

Dated at Wainwright this 21st day of September, 1912.

D. W. Hansen, Sec. L. I. Dist. 24-C-4.

NOTICE

Local Improvement District 23-E-4

Notice is hereby given that all persons having claims against L.I.D. 23-E-4 are required to send particulars of such claim to J. W. Wyatt, Jarrow, Alberta, Secretary-Treasurer of said district, before the seventh day of November, 1912, and that any person that fails to do so shall be deemed of his right to recover the same from said district or any other district that may be liable for the liabilities thereof.

Dated at Jarrow the 13th day of September, 1912.

J. W. WYATT, Secretary-Treas.

L. I. D., 23-E-4

## LOCALS

### OPENING OF NEW CHANCEL

Very suitable and appropriate were the music and service at the English church on Sunday evening last, when the new chancel was opened. Rev. Mr. Clark occupied the pulpit and preached a forcible sermon.

### SURPRISE PARTY BY FRIENDS

Friends of Miss Ethel Mohr gave her no small surprise on Wednesday evening last, when to the number of about fifty, they gathered in the flour mill where dancing was enjoyed until about midnight.

### WILL NOT REMOVE TO EDSON

Dr. Watson, who has returned from a business trip to Edmonton, firmly denies the rumour which has been current in the town, purporting that he would remove to Edson and practise his profession there. On the contrary he will remain in Wainwright.

### TALK OF QUADRILLE CLUB

There is some talk of a quadrille club being formed for the coming winter, and already many have taken very favourably to it. It is possible that "Winey" Wineholt may lease the building, owned by Robert Wright on Third Avenue for the winter months.

### NEW LOADING PLATFORM

A new loading platform has been completed at Fabyan and is now being used by farmers. It will prove of great benefit to those residing in that community during the shipping season for grain, which will begin shortly.

### SHOW CASE REPLENISHED

The show case at the local platform has been replenished with the resources of the district by the board of trade, and it is doubtful if better samples of grains and vegetables can be found anywhere in Alberta. It is now the most attractive it has ever been.

### BROKE SHOW CASE WINDOW

About two months ago, some miscreant broke one of the large show windows in the exhibition case at the station and this has not been replaced as yet. It seems that it was broken while certain G. T. P. employees were playing ball, and they haven't had the honour to replace it.

### FIRE TANK BEING COMPLETED

Messrs. Walker & Love are completing the fire tank at the rink, which was thrown up last week by John Manner, the original contractor. Incoming water is the chief difficulty which will be encountered, and what the new contractors say they will overcome.

### RALLY DAY SERVICES

The Sunday school Rally Day services were a splendid success in connection with the Methodist Church last Sunday. The attendance was large. The decorations were very unique, giving prominence to the Bible, The Flag and the Sunday School.

### TRAIN LATE IN ARRIVING

On account of bad track east of Watrous, No. 1 has been delayed on each successive day for a week or more. Late trains along this line are almost unknown and certainly uncommon. Trains will be running on scheduled time shortly.

All those knowing themselves to be indebted to V. E. Graham, or the Wainwright Fuel Co., please call at the Merchants Bank and settle, on or before November 1st, after which all accounts will be handed to an attorney for collection.

V. E. Graham

## PERSONAL

Mr. H. V. Fieldhouse was a business visitor to Edmonton last week, returning home on Sunday express.

Mrs. Lally and Mrs. N. S. Kenny left here on Monday for Edmonton, in connection with certain Masonic matters relating to the Eastern Star.

Mr. Leo Mohr, son of Mr. C. H. Mohr of this town, has received a motor bicycle from Minneapolis. This is the first bicycle of this kind in the town.

Miss O. Belcher, late of Detroit, Mich., arrived here on Sunday and will conduct a dress making department in connection with the G. H. Beaudry Co's establishment.

Mr. T. C. Coolen is in Lase land this week completing certain work on which he tendered. He will return here tomorrow.

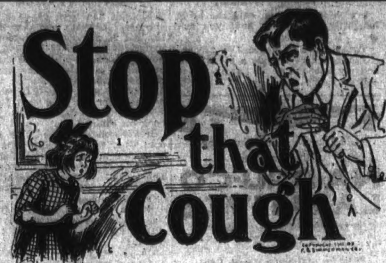

Miss Ethel Carbert, who visited relatives in Gilbert Plains, Man., has returned home and has resumed her position on the STAR staff. Miss Nellie Davis, who is also employed in the same office, left here on Saturday last, in company with her mother for Winnipeg.

Mr. J. D. Nickle, who formerly worked out of here as a brakeman, but who went west of Edmonton about a year ago, is in town this week, visiting his family. Mr. Nickle has severed his connections with the G. T. P., and is now with a coal mine company in the mountains.

Mr. and Mrs. V. E. Graham and daughter, Mildred, left here yesterday afternoon for San Antonio, Texas, where they will visit for the winter. Previous to his departure, Mr. Graham stated that he would assuredly return here with his family in the spring.

All accounts against the Wainwright Agricultural Society should be in the hands of the secretary, S. R. Bowerman, before the next meeting, which will be held on Saturday next.

Read F. L. Harris' fruit land advertisement on another page of this issue. It will interest you.

## RICH SOIL INSURES GOOD CROPS

This is a fact which every farmer knows. He also knows that a machine that will aid him in producing rich soil is a safe and economical purchase.

**THE CORN KING MANURE SPREADER**  
is the machine that will aid you, Mr. Farmer, to increase the crop production of every square foot of your farm. It spreads the manure evenly over all the soil, bringing a part of the manure in contact with every particle of the soil. When manure is spread by hand this cannot be done, and some of the soil is starved while other portions of it are overfed. The enriching of the soil is the only one reason why every farmer should own a Corn King manure spreader.

**THE CORN KING MANURE SPREADER**  
was designed by men who are thoroughly acquainted with farm machine requirements. The material from which it is constructed is selected for durability and strength. Any one that can drive a team can operate the Corn King. It transforms one of the most dreaded jobs on the farm into a pleasant one. It saves time, as one man can spread as much manure with the Corn King as five men can spread by hand.

If you are going to purchase a manure spreader this season, do not forget to call and examine the Corn King before doing so.

C. T. LALLY

MAIN ST.  
WAINWRIGHT

Mr. George L. Kineade, who is located on a valuable quarter section at Clark Manor, left for Saskatchewan on Friday last. He will follow the piano business during the winter months, returning here in the spring.

Mrs. John W. Gray left on Monday on a visit to the home of her parents in Russell, Man. She was accompanied by her sister, Miss Shaw, who has been her guest here for the past six weeks.

Constable Webster, who attended the Calgary Stampede as one of the body guards to the Duke of Connaught, returned here last week. Constable Garrick, who relieved him, has returned to Edmonton.
